Progress Report - Centenary Park

The excavation, settling and back filling have now been completed and most of the pitch has been levelled.

Over the next few weeks the final laser levelling will be done and the grass sown. There is then a lot of work to be done on the surrounds, ie, fencing, banking, coaches boxes, etc..

The target date for completion is still mid May depending on weather conditions.

We are hoping to be back at Centenary Park for at least the second half of the season. In the meantime we can remind ourselves how lucky we are to have available a second Junior Complex to allow us to continue playing with minimum interruption. The Frankston Soccer Club Senior and Junior facilities must now rate as amongst the best in the country.

JUNIORS

The Club will be fielding teams in all age groups from Under 7 through to Under 18's. Most of the squads are already training.

For the first time we will field an Under 18 team and a large squad will commence training next Monday. Most of the players are from last years Under 16's either at our club or other local Clubs. The Under 18 league is played on Sunday afternoons and last year included teams from all the National League and most Premier League clubs.
