Sundays

Reserves play in H. Armstrong Cup.

PERSONALITY PARADE No.2

ALAN PARROTT

One of the most talented players in the Frankston side at the moment is Alan Parrott. Alan was born in Hitchin Hartfordshire, but spent most of his early life in Sutton in the Surrey County. Alan established his love for soccer in Sutton and later became a Sutton United player in the top Amateur League in London, the Isthmian League. Whilst at school, Alan represented his County in an under 15 side. On leaving school, Alan played Junior soccer for a local team, then moved to Sutton United after which he joined Epsom & Ewell in the Athenian League. They were Senior Challenge Cup Runners Up while he was with them. Alan arrived in Australia in 1968 to marry his teenage sweetheart Barbara, did so later that year and since have a Son, Adam, now 9 months. Alan joined Frankston almost as soon as he arrived here, and has proved himself a great asset to the Club. Alan is a Sales Representative for a Paper Products Company. We can look forward to many more years of good football from him, being 6 ft. and 12 st. he has an ideal build for a soccer player. He has great ball control, a strong shot on either foot and is one of the fastest men in the team. 23 years old now Alan was top scorer last season and now fills a regular spot in Midfield.

COMMITTEE SPOTLIGHT No.1 HANS GUSSENHOVEN

Perhaps the players of the Club get a little too much of the limelight sometimes, so we have decided to introduce our Committee & Helpers in a spot in the programme. The first fittingly is Team Manager, Hans Gussenhoven. Hans probably has stronger contacts with the Club than anyone. He has filled just about every job there is from his present position to President in 1965. Hans also has achieved almost every trophy on the playing field, Best Clubman, Most Improved Runner, up to Best & Fairest. In promotion winning side in 1960 & again in 1965 Hans was a Right Winger then and believe it or not very speedy. In fact Hans was a schoolboy sprint Champion in his original home town of Leyden in Holland. 30 last Saturday, Hans is married to an English girl Gloria and joined the parent brigade with a daughter, Lisa born several weeks ago. Hans runs his own printing firm and like his Father is a Life Member.

...cont.d.....

COMMITTEE SPOTLIGHT cont.d

In Hans we have an extremely efficient Team Manager, a tough no-nonsense Committee man and if he has a duty to do you can be sure it is done in the most efficient manner.

SYSTEMS

Most teams these days play some sort of system, usually 424 or 434. Have you ever wondered how these different systems developed? The first formation back in the 19th Century when the game first began, had 9 forwards, a defender and a goalkeeper. The game was then played in bowler hats and long trousers. As the skill developed in players, more defensive cover was required. The Scots took the credit for introducing the 226 system, 2 backs, 2 haves and 6 forwards. At Cambridge in 1883 the students developed the pyramid system, the 235, which was the most popular used until fairly recently. In 1925 a change in the offside rule gave an idea to Herbert Chapman of the Arsenal to develop the 3 full back system, more commonly known as the WM because of its formation on the field. The Swiss Bolt system was the first to introduce a sweeper and used 5 forwards and 4 defenders in front of the sweeper. The clever Hungarian line up of recent years reversed the WM and introduced a deep lying centre forward and wingers which helped them trounce England 6-3 at Wembley and later 7-1 in Budapest. The Brazilians accidently came across the 424 when they found that they had a deep lying inside forward in DIDI and use attacking wing half in ZITO to form the middle pair in a system, pt

SYSTEMS cont.d

that was to bring them great success. A further development of this was the 433, probably the most widely used today, was adapted by the English and helped them win the World Cup in 1966. Systems depend upon the players intelligence, technical ability and condition and with the continuous improvement in the game today one wonders what will come next.

At Altona, after we had defeated them 2-1 earlier this season, their Coach admitted being baffled by our system which was none of those mentioned above, but a 442. But not to give any secrets away, we have now changed it. Any guesses?

FRANKSTON RES. (1) 1 V SPRINGVALE RES. (0) 0

Scorers: Murray

Team:

Bardsley
R. Parry J. Skelley
R. Cummings R. Adams R. Lymer
G. Quennell J. Monty S. Murray A. Jones

Res. R. Libbiter G. Moore

Report:

No sneak victory here, a good goal by 15 year old Sam Murray was enough to give us two points. 17 year old Richard Parry took the kick and young Sam banged it home from close range. In fact it was the youngsters day. Bob Adams, getting on in years at 19, put in a great game at Centre half. His first year in this position too. Full backs Parry and Skelley both 17 looked competent and strong. Jim of course has already made the first team. Up front the talent of Sam Murray is incredible at 15 and Alan Jones is only 18. John Monty also is only 19 and the outstanding feature about this game was the performance of our youngsters. Springvale were never really in it and the one goal wasn't a fair result on the chances that were available. Best 3: Adams, Parry, Jones.

SOCCER SHORTS

The English FA Cup Final will be televised direct on May 8th via satellite. I believe a TV will be in the dressing rooms and a Cup Final Party will be on. Wives and girlfriends we are pleased to say, have been allowed free admission for the season. That means only one per player Brian.

Soccer Shorts cont.d

A preliminary Coaching course, the first in the Eastern area will begin at our ground on Monday next at 8 pm. It will go on for 6 weeks.

There is a Club Dance at the Anglers Hall on May 22nd \$3.00 single all inclusive. Music by the enterprise. Tickets from any Committee man.

BAXTER STADIUM

It is hoped within a couple of years we may make a giant stride in the history of our Club. All being well and negotiations over successfully, we could be playing in one of the finest stadiums in the Victorian Soccer scene. The basic conception of Baxter Stadium is a high speed Greyhound track encircling a full size Soccer pitch and training area. Facilities that will be provided include stand with seating for 2000. Entry to stand will be at high level similar to the VFL ground at Waverley. Dressing rooms, showers, etc. treatment room, referee & Committee rooms will be at the back of the stand. A Restaurant will be built at back of the stand and can also be used as a covered training area. Full broadcasting facilities are available. A greyhound track will be constructed similar to Harold Park in Sydney and of sand. This will produce the fastest track in Victoria. Track will be floodlit on a dual basis so that night Soccer can be played. Also a floodlit training area. An embankment will be built to enclose the greyhound track, the main soccer pitch being placed directly in front of the stand with an embankment on the side and one end similar to Olympic Park. Ground will accommodate 20,000 and it is intended to extend the covered area to about half the embankment. Parking accommodation available for 10,000 cars. When complete, this will give our Club one of the best grounds in the State and we must make every effort to be worthy of it both on and off the field.

Next game Away V Keilor City at St Albans.
Next home Game V Prahran

CITY CHATTER

Welcome once again to the North Seaford Reserve for our second home game of the season. Today's visitors are Elwood Austria and we extend a cordial welcome to their Committee, Players and Supporters. Our opponents bring with them a reputation of good soccer and can be classed as one of the best sides in the first division. Last season they attained 3rd place in the League, a creditable performance, whilst their Reserve side won their division. At present they have drawn 3 games in a row against good sides, so we can see they will be hard to beat even at our venue.

Our own Club's start to the season has not been impressive. However, one must consider that our impenetrable defence of last season has been weakened with the loss of Bill Lewis to Frankston Pines and Bill Houston who is in retirement, temporarily we hope. Our attack of last season has also failed to find the chink in the armour of the stronger 1st Division sides. Perhaps we may find the answer in the players currently training hard. John Walton out of action for two years after a broken leg and Roger Baxter a former striker with Lions prior to joining Triestina who has been on the sidelines with a back injury.

Tom Flynn & George Bacon two of last seasons champion Reserve team have joined neighbours Langwarrin to seek 1st team football. This go ahead club opened new club-rooms recently and their set up certainly looks rosy. We have transferred a whole side to Langwarrin over the past couple of years and we wish them luck.

Trevor & Ann Parry became proud parents since we last came to press, of a baby girl Lian. One of quite a few to come with the Benton's, Scourfields and Bailks all expecting additions later in the year. Seems there is action off the field as well. Cheerio!

FRANKSTON CITY (1) 5 SPRINGVALE (1) 1

Scorers: Lawson 2 Baulk 2 Parry

Team: Papoutsakis
M. Bevis N. Bevis Schroeder Benton
Lawson Johnstone Mathews Finch
Baulk T. Parry

Res: Hall, Bardsley

Report: At last something cheerful to report. Although we played our worst for the season so far, we were far too good for bottom side Springvale. This wasn't apparent however, in the first half. Springvale worried our defence early in the game and took the lead with a lobbed shot from a short corner.

The blues began to warm up at this and Keith Lawson in good form, latched onto a loose back pass and equalised with a well taken goal. After half time it was all Frankston as our defence got on top and the attack, with the pace of Baulk and Parry beginning to stretch the Springvale defence. The goals came in a quarter hour spell. Trevor Parry let loose a terrific shot which hit the Bar and Graham Baulk on his knees headed in from an oblique angle. 2 - 1. The third goal went, from Bill Papoutsakis to Mick Bevis who sent a long ball to Graham Baulk on his own on the right and that was that. Keith Lawson got his second with a header from a cross by Mick Benton, as the Blues got on top everywhere. Trevor Parry made it 5, backing up well when Tony Hall had a good chance deflected. Frankston could have won by many more but left the goalscoring until late in the game. In each game this season, we have had more than our share of the game, until now we haven't turned it into goals. Let's see if we can continue in this fashion now we know we can do well in this Division. It won't be until 6 or 7 games are played that the League gets into some sort of order but on this showing it seems we can well hold our own.

Best players: K. Lawson, Finch, N. Bevis. Keith Lawson wins the bottle of Champagne for the day's best player donated kindly by Geoff Fitzgerald of the Riviera Hotel. This will happen every week and the boys are crazy about the idea.

Slavia	3	0	2	1	5	8	2

To complete this edition, a sour note. The posts you see around our main pitch, eventually to be all round and painted white, have become the target of some budding caber tossers. As fast as our hard working navvie gang can put them in, the mystery man pull them up. No less than 3 times have they been pulled up, only to be replanted, by our angry, fed up, amazed navvies. For the life of me I cannot understand the mentality or reason for this low trick. A fitting punishment, if only they could be caught, may be to make them dig the holes around the rest of the ground then make them pull them out and replace them three times. Perhaps someone is trying to stop the progress of soccer in this area. They've got some hope.
