A few people have worked extremely hard to keep the club at State League level. Their efforts in obtaining players equal to the task (with little or no finance by the standards of some State League clubs) deserve recognition. Credit must go too to the number of players 21 and under who have blended so well with the more experienced players. Harry Chalkitis has done a tremendous job when one considers how injuries and other reasons have taken their toll, with 2 and sometimes 3 experienced players being out some games.

Last Sunday at Sunshine, the team came away with a valuable point from George Cross, in a game that could have gone either way.

A certain move was made several times during the course of the game. The first part was carried out by the same player and the latter part by two different players. Twice there occurred near misses and of course one attempt ended in the vital goal by Rab Stewart. No more can be revealed - let the opposition find out for themselves!
