Kick-off (Reserves 1pm, First XI 3pm)

PROVISIONAL LEAGUE — DIVISION ONE

TELEPHONE (051) 55 2319

FRANKSTON GOSSIP

No points, two red cards, so many yellow cards we couldn't keep count, and the sad sight of BRIAN PAULDING hobbling off the park was our fate at Altona last week for both teams.

Australian soccer has gone through many crossroads, at International and National League level one can assume we are reasonably successful, however at grass roots level the game is struggling. All this is said in light of the type of refereeing we were subjected to in the First XI game last week and why we have a reason for problems to our game. Referees like that should not be allowed. Alright, so we lost the game and perhaps with any referee we could have lost the game, but at least we would have had a chance. The unfortunate part of this is that he will be in the middle again today, and next week, with other clubs having to put up with his decisions.

In writing this programme I don't really want to re-live last weeks game, we just aren't playing well. Too many of our players are getting lost in the game playing in spasms and when they want to, and not when we really need them. Teams we have met to date have never been better than us and yet we have so few points to show for it. It is so easy to become negative in our thinking rather than being positive, encouraging players on the field rather than blasting them for errors has got to happen otherwise we shall never function as a team.

Last weeks Reserves game was also disappointing. Young RYAN LEE scored a great goal from a cross by ANDY HOLLOW but despite the advantage of a strong wind we couldn't score again. One goal was never enough and yet our team gave three goals to ALTONA. GARY HOUSELY pulled one back but we finished losing 3-2.

STEVE SHORRICK signed from SEAFORD mid-season has failed to settle here and returned to his old club.

The club would like to welcome CLIVE HOLMES, a midfielder, who has signed for us, his previous club being BENTLEIGH GREENS.

PLAYER PROFILE

CLAYTON LEE

Occasionally we like to look behind the scenes of the club to the unsung heroes who are there when needed and fully committed to the club, one of these such people is Clayton. The Lee family arrived in Australia in the early eighties and through friends became associated with Skye Rovers. It soon became evident that the whole Lee family was to play some part in the whole club history. Darren and Ryan have played junior soccer and of-course now senior soccer for the club whilst Dad played Bayside League and Mum, Anne, was chief organisor club functions. Clayton had never played soccer in his native Wales, however he took to the game so quickly his enthusiasm soon became evident on the field, a person who never gave up, in any game never knew when he was beaten. When Skye joined the Provisional League, Clayton played in the Reserve side, and again his workmanlike performances caught the eye, and he just couldn't be left out of the team. In later years he reverted back to Bayside League competition still enjoying his soccer. He is now Club Bar Manager but finds time to play his other love, darts. People like Clayton don't come around very often and we are certainly glad he chose our club to be associated with.
